Sandtoft Hip Clip**

Installation guide for Sandtoft Hip Clip

Sandtoft Hip/Valley Clips

Sandtoft hip/valley clips have been specifically designed to secure the tails of cut single lap tiles at hips and valleys.

The clips can be used in different ways, as shown opposite.

Suitability

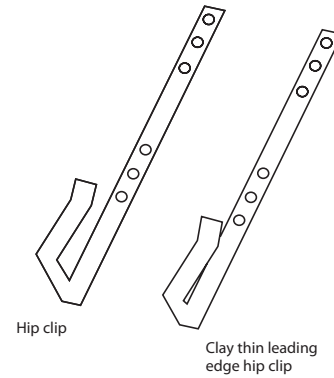

Sandtoft hip clips can be used with the following tiles:

Hip Clip:

Double Pantile
Double Roman
Calderdale
Dual Calderdale
Bold Roll
Lindum
Standard Pattern
Shire

Clay leading edge hip clip:

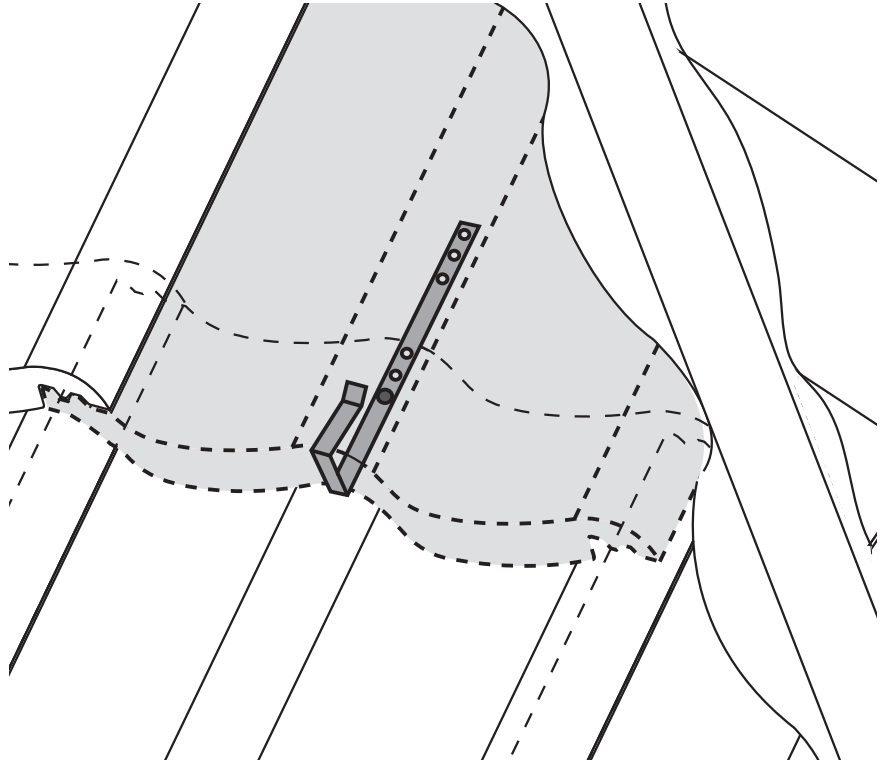

20/20
Balmoral
Cassius

Installation

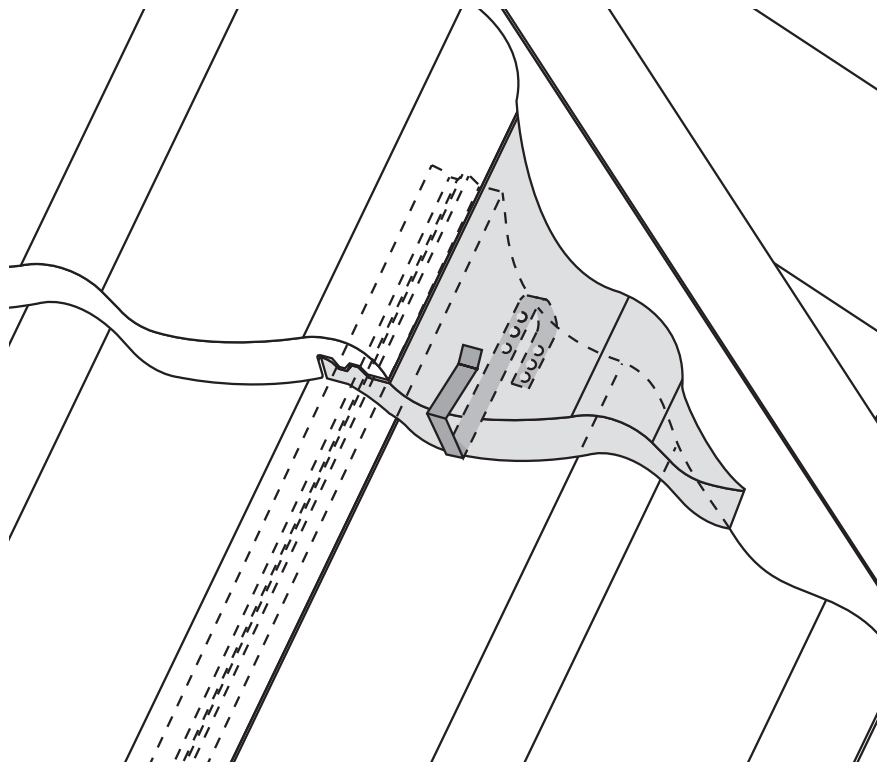

1. Where the head of the tile in the course below contains a nail hole then the clip can be secured by nailing through this nail hole.

The tail of the cut tile can then be fitted into the clip.

2. Where it is not possible to secure the clip through the nail hole of the tile below (because it has been removed in cutting) then the clip can be secured by bending it over the head of the tile below.

If possible, the clip should be nailed to the batten or other convenient timber.
